

# LUIS PACHECO

Frontend Software Engineer

## Summary

Innovative and startup-spirited developer eager to bring a 'why' perspective and collaborative energy to the team. Passionate about efficiency, learning, and a futuristic approach to tech.

### Tech Skills

React	Cypress	Msw.js
TypeScript	Jest	LighthouseCI
Redux	RemixJS	
NodeJS	GatsbyJS	
NextJS	D3.js	
Tailwind CSS	Grafana	Kibana
Figma		Lua
Git		

### Soft Skills

Strong team player  
Agile and Scrum methodologies  
Excellent problem-solving skills  
Effective communication  
Commitment to quality  
Adaptability in a fast-paced environment

## Experience

### Software Engineer

JobCloud SA | jobup.ch - jobs.ch  
November 2021 - Present

Switzerland

- Front-End Development:** Led the development of intuitive and responsive user interfaces using React and TypeScript in an Agile environment, aligning with industry demands for user-friendly software solutions. Regularly participated in sprints, stand-ups, and retrospectives to ensure continuous improvement and efficient project delivery.
- Data-Driven UIs:** Utilized D3.js and Redux for creating data-intensive applications within an Agile framework, managing high-frequency data updates efficiently and adapting to changing project requirements swiftly.
- UI/UX Design:** Translated complex workflows into easy-to-use interfaces, leveraging skills in Tailwind CSS, Figma, and TypeScript. Applied Agile principles to rapidly prototype, test, and iterate designs based on user feedback and stakeholder input.
- Software Development Proficiency:** Demonstrated strong capabilities in software development with React and Redux, following Agile best practices for coding, code reviews, and collaborative development.
- Quality Assurance and Testing:** Implemented Jest and Cypress for testing within Agile cycles, ensuring the reliability and quality of software products through continuous integration and testing.
- Process Automation:** Automated key processes using Bash scripts, contributing to the Agile goal of improving operational efficiency and reducing repetitive manual tasks.
- Web Performance Optimization:** In an Agile setting, focused on optimizing Core Web Vitals for efficient application performance, regularly assessing and enhancing site speed and user experience.
- Innovative Solutions:** Developed internal tools for various teams, showcasing creative problem-solving skills and applying Agile methodologies to quickly respond to emerging needs and changing business requirements.

### Full-Stack Developer

Nomatives, Business Owner  
February 2018 - April 2021 (3 years, 4 months)

Switzerland

- Comprehensive Project Oversight:** Managed entire project lifecycles with a startup mindset, employing Agile methodologies to align design and development strategies with client objectives from inception to deployment. Ensured agility in response to changing client needs and market trends.
- Figma Expertise in UI/UX Design:** Skilled in Figma, created engaging interfaces and prototypes for several clients in an Agile framework, handling everything from conceptualization to client presentation and iterative refinement based on feedback.
- Lead Full-Stack Web Development:** Directed full-stack web development in an Agile setting, combining React and TypeScript for front-end components, and overseeing backend architecture. Facilitated Agile practices like sprint planning and daily stand-ups to enhance team coordination and project transparency.
- Data-Driven UI Development:** Employed Redux and D3.js in developing data-intensive applications within Agile cycles, adept at handling high-frequency updates and evolving requirements for complex visualizations.
- Quality Assurance and Testing:** Conducted comprehensive testing using Jest and Cypress as part of Agile quality assurance processes, ensuring high standards of quality and reliability in web applications through continuous testing.
- Performance Optimization Focus:** Prioritized web performance optimization, including Core Web Vitals, within Agile workflows to deliver efficient and user-friendly experiences through iterative enhancements.
- Process Automation and Efficiency:** Automated essential processes using Bash scripts, contributing to Agile goals of improving operational efficiency and reducing time-to-market for new features.
- Innovative Solutions for Diverse Needs:** Demonstrated versatility and problem-solving skills in an Agile environment by developing and implementing internal tools that address diverse team requirements and rapidly changing business needs.

# Education

## Prospective Bachelor Degree in Computer Science

University of Santiago Mariño  
02/2013 - 04/2017

- Completed 3 out of 5 years; paused academic journey.

## Epic React: Fundamentals

EpicReact.dev - Kent C. Dodds  
02/2021 - 03/2021

- Learned everything needed to be effective with the fundamental building block of React applications

## School Centre of Systems and Computing

Escuela de Sistemas, Maracay, Venezuela  
09/2014 - 12/2015

- Focused on software development, data analysis, and systems programming.
- 300 hours of assignment including CISCO IT Essentials

## Basic Ethical Hacker

Escuela de Sistemas, Maracay, Venezuela  
08/2016 - 09/2016

- To receive the Certification, I completed all 16 hours of assignment

## Epic React: React Hooks

EpicReact.dev - Kent C. Dodds  
03/2021 - 03/2021

- Gained comprehensive expertise in React Hooks, focusing on practical application in real-world projects.

CliftonStrengths®

CERTIFICATE OF TALENT FOR

# Luis Pacheco

## Activator

People exceptionally talented in the Activator theme can make things happen by turning thoughts into action. They want to do things now, rather than simply talk about them.

## Ideation

People exceptionally talented in the Ideation theme are fascinated by ideas. They are able to find connections between seemingly disparate phenomena.

## Restorative

People exceptionally talented in the Restorative theme are adept at dealing with problems. They are good at figuring out what is wrong and resolving it.

## Connectedness

People exceptionally talented in the Connectedness theme have faith in the links among all things. They believe there are few coincidences and that almost every event has meaning.

## Learner

People exceptionally talented in the Learner theme have a great desire to learn and want to continuously improve. The process of learning, rather than the outcome, excites them.
